

Endangered Red and Amber List - Moorland Birds

Black Grouse - Lapwing - Golden Plover - Ring Ouzel

Godwit - Curlew - Meadow Pipit - Skylark

Merlin - Grey Partridge - Twite – Wheatear

Stonechat - Greenshank - Dunlin - Whimbrel

*It is proven that a well-managed grouse moor carries the highest biodiversity of plants, birds, mammals and invertebrates of any moorland - RSPB and Game Conservancy Joint study, published in *The Journal of Applied Ecology*, 2001.*

Endangered Red and Amber List - Moorland Birds

Short Eared Owl - Fieldfare - Teal - Widgeon

Common Gull - Common Snipe - Oyster Catcher - Pochard

Dotterel - Reed Bunting - Red Grouse - Osprey

Kestrel - Red Kite - Peregrine - Golden Eagle

Hen Harrier - Two *common* hen harriers consume thousands of red and amber list species each year. More render upland management unviable.
